

## First Aid

**A first aid kit is located in room 029, accessible through the downstairs kitchen of this building.** It contains a bed and chair, first aid kit, and a CPR mask.

## Chemical Spills

- **A chemical spill kit is located at the top of the main stairs on the second floor of this building.** This includes acid, base, and solvent spills as well as mercury (e.g. from a broken thermometer). A list of the contents is posted beside the kit. If you have a spill and need to use something from the kit, please let Patrick Tamkee know so that he can replenish the kit.
- **There is a MSDS folder on the chemicals cabinet in room 155 (three doors to the left of this sign)** that contains safety information pertaining to all chemicals found in our lab.
