

Hoggan Lake, Gabriola Island

The whole lake is owned by Mark Coats (Gabriola Golf and Country Club only rent his land). He must be contacted before you go - phone number is on our Internal page under Access to Lakes (<https://www.zoology.ubc.ca/~schluter/internal.html#Hoggan>) .

When you arrive, knock on his door to let him know you've arrived and ask permission to trap the lake. He remembers Sean from 2015 and Dolph and Katie from 2024. He might let you trap from his property if you ask.

There's good trapping on the Golf Club side of the lake. Park the truck next to the Caretaker's shop (see "access to lakes" lab web page for phone numbers). A good spot is near the far end of the course at the small bridge where the creek enters.
